

What do our exhibitor say?

This is our third time to exhibit at philbeauty. Our company was a distributor of well-known imported products like high-end gel polish, footcare, hair care and other salon and spa products. For our company, philbeauty 2018 is the perfect event to showcase our high-end products and to introduce it to the growing market. It helps us to connect with our existing clients and also meet new ones as well. We will definitely be on board again for next year's philbeauty show.

We find that the crowd in philbeauty is good and hopeful that the result will be good also. We are positive that we will participate next year as we have a lot of house brand to showcase.

Thank you so much for inviting us, it's our first time to participate in philbeauty show and it has been amazing. I am an exclusive Asia Pacific distributor for SEYO TDA (TransDermal Application), this device is used for transdermal application of products into dermal layer of the skin. It's amazing to be here since it's the first time that the device was introduced in Philippine market. The exposure and education that I'm able to partake to all of the participants in introducing something new in the technology and the beauty industry is a great experience for me.
